Gush 2 Motion

Hands-free, App-Controlled Vibrating & Oscillating Penis Massager

Introducing Gush 2 Motion — the all-new addition to the Gush family. It combines powerful vibration with targeted oscillation and adds a built-in gyroscope. Its ergonomic design wraps securely around the glans, delivering precise frenulum stimulation alongside deep, satisfying vibrations.

Now equipped with a built-in gyroscope, your movements are converted into vibration patterns that control any connected Lovense toy in real-time — just like Max 2, Solace Pro, and Velvo. Tilt, rotate, or shake to instantly drive your partner's toy, turning your natural movements into shared pleasure.

From couples play to long-distance intimacy and interactive content, Gush 2 Motion opens up new ways to connect and share pleasure together.

Choose Your Way to Play

Hands-Free

Enjoy slow, building satisfaction during a hands-free session that will allow you to explore the rest of your body (or your partner's).

Stroking

If you enjoy rubbing sensations, go for stroking accompanied by vibrations. Don't forget that you can add the included band in both cases for more intensity and tightness.

Gyro Sync New

Wear Gush 2 Motion and let your natural movements control any connected Lovense toy. Experience mutual pleasure without lifting a finger.

LOVENSE

One Ecosystem. Endless Purchases.

The Lovense app connects seamlessly with every toy in the lineup — the more a customer owns, the richer the experience. Each new product adds to the ecosystem, driving repeat purchases and long-term brand loyalty.

Gush 2 Motion deepens this connection with a built-in gyroscope, enabling real-time motion control across the ecosystem.
