## Rabbit Thruster

### Not just an average rabbit vibrator

PowerThrust™  
technology

Powerful  
Vibration

15mm  
Thrusting Range

ZALO  
Remote Pro

Up to  
7 times / second

Heating  
Function

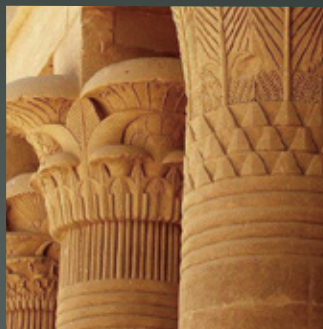

As the first dual-stimulating rabbit massager from the ZALO Legendary Series, MOSE follows the stunning ancient Egyptian theme of the collection with its beautiful design elements. MOSE features ZALO's one-of-a-kind PowerThrust technology, which is uniquely powerful while operating silently, with its shaft that thrusts forward by up to 15 mm and can deliver up to 8 thrusts per second for intense internal stimulation. At the tip of the shaft is a vibrating motor to target the G-Spot with rumbling vibrations as the shaft thrusts in and out. The base of MOSE's shaft is equipped with a separate motor that provides direct vibration directly to the clitoris. MOSE also is enhanced with a pre-heating function to heighten its lifelike feel and a display screen for easy monitoring of the functions and intensity.

# Design elements

## God of wisdom(Thutmose)

Thutmose, also known as the god of wisdom, was the third pharaoh of the 18th dynasty of ancient Egypt. Originally a military leader, Thutmose inherited the kingdom because the previous pharaoh had no sons. During the reign of Thutmose I (1504 BC to 1492 BC), he conquered Nubia and successfully fought against Mitanni, a powerful country in West Asia. He is widely credited as being the first real founder of the most glorious 18th dynasty in Egyptian history.

MOSE's powerful telescopic vibrating shaft is inspired by the flourishing petals of an Egyptian lotus flower, paying tribute to the thriving reign of Thutmose and the rich culture of ancient Egypt.

# PowerThrust™ patented

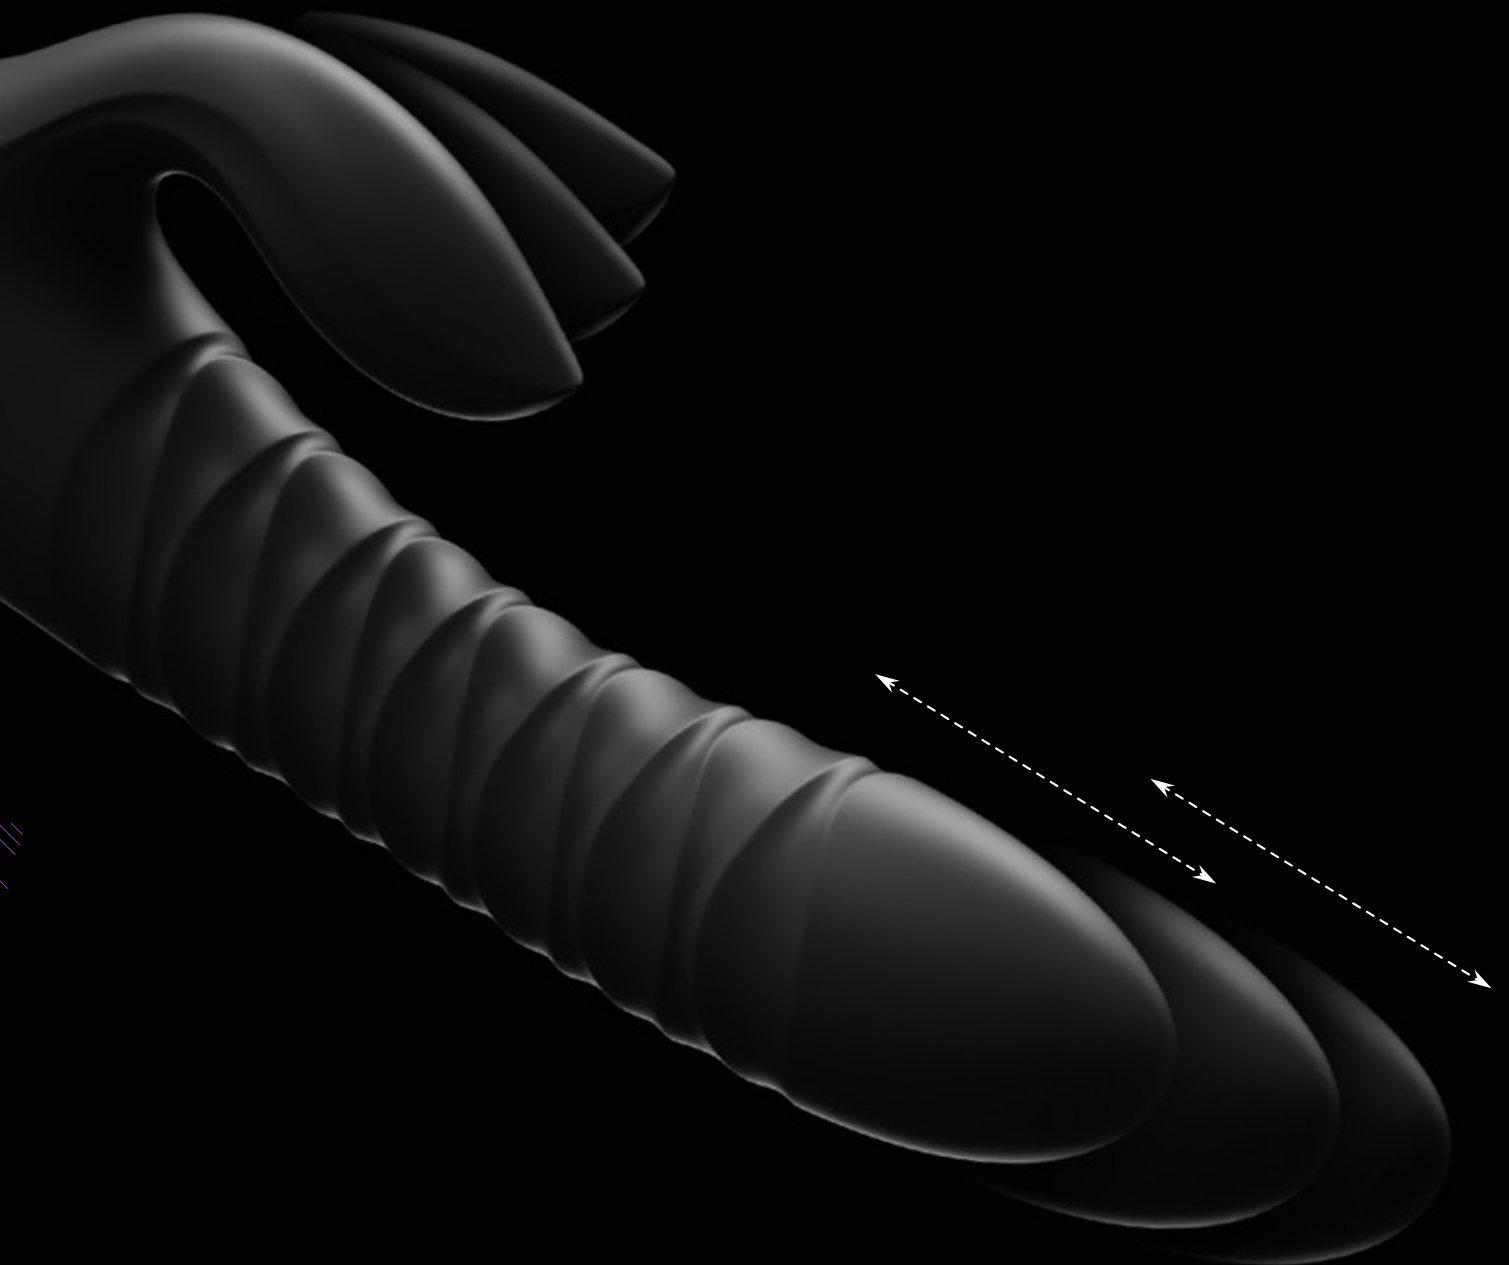

MOSE features ZALO' s cutting-edge PowerThrust technology of high-frequency, powerful thrusting.

Extends  
approx

**15** MM

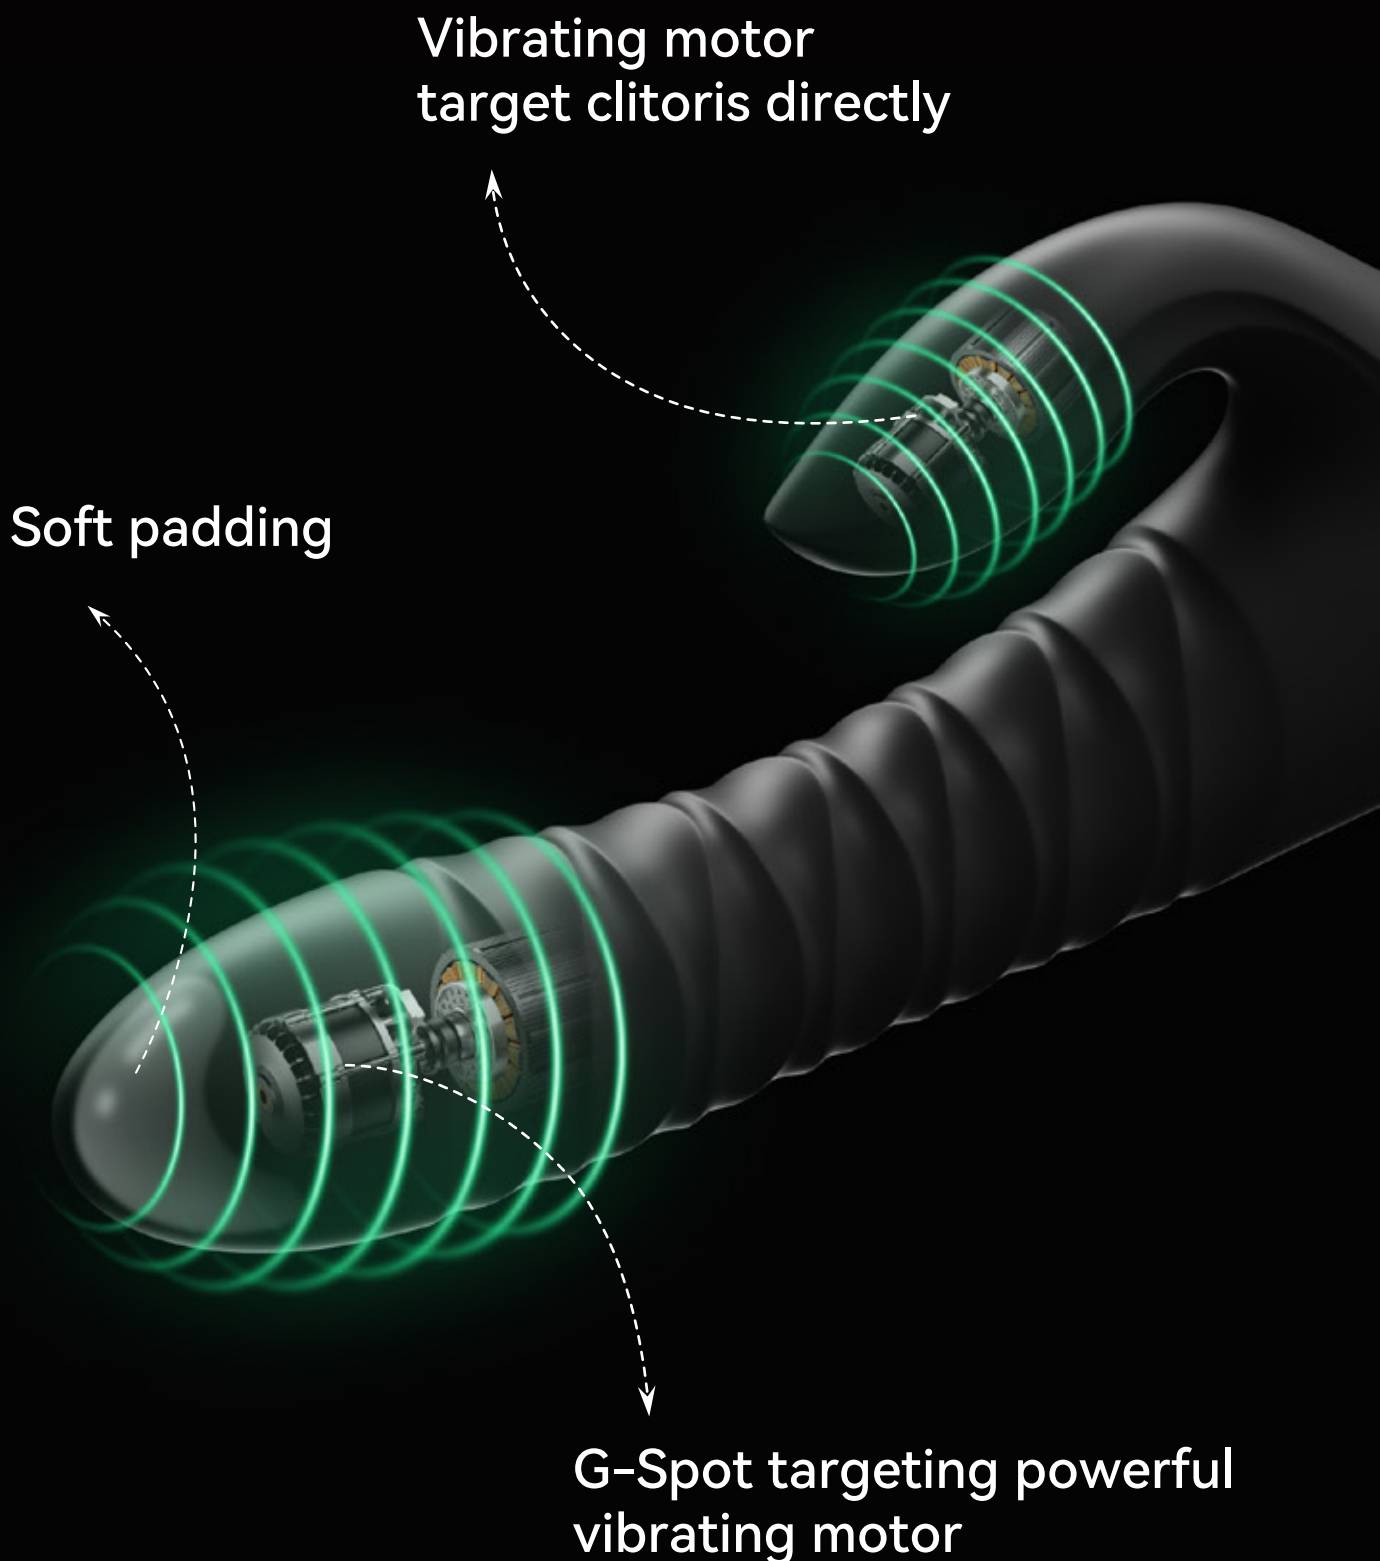

Thrusting frequency  
is about

**7** Hz

# Ultra-Powerful Vibration

MOSE features a powerful vibrating motor beneath a soft, padded layer of soft silicone to target the clitoris.

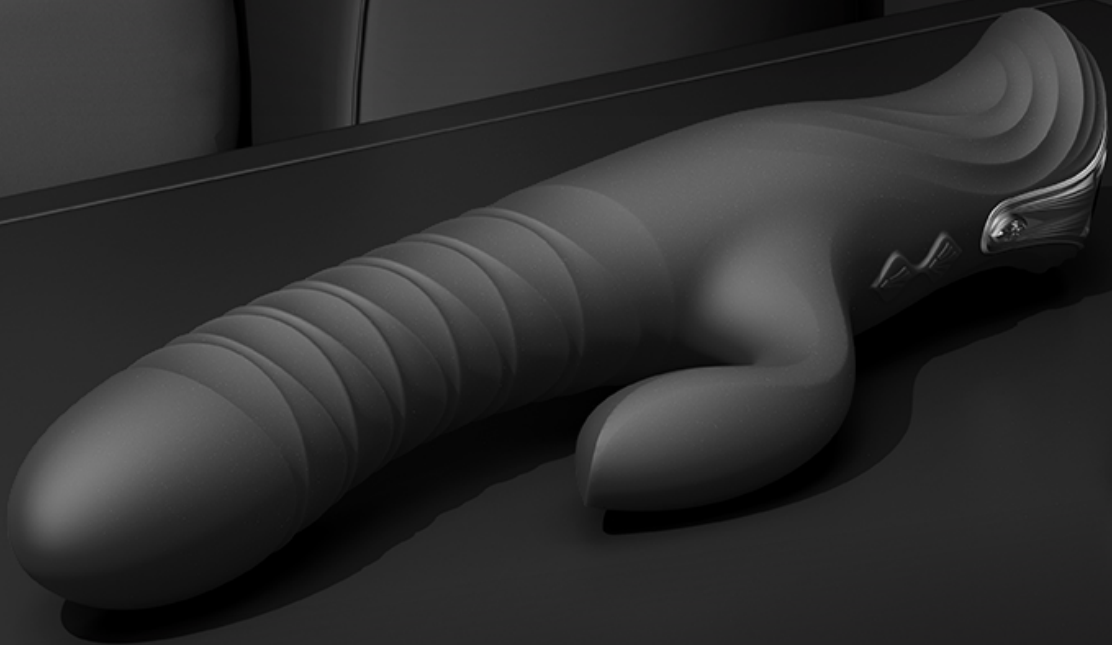

# Quiet design

The motor used by MOSE has strong power and low noise.

Quiet design  
operates at below than

**50** DB

## LED Smart Screen

The large screen replaces the traditional indicator light, which is simple and technological. The mode strength is clear at a glance.

**Vibration and thrusting mode**  
Displays current intensity

**Control Clit-Stim Motor**  
Change intensity of vibration to the clit

**Control G-Spot Vibration**  
Change intensity of vibration at tip of shaft

**Control Thrusting Intensity**  
Change the speed of the thrusting function

**Power Display**  
The battery levels are displayed as bars. The four bars will decrease when power is lost.

**Orange Preheating Indicator**  
The green indicator light turns orange when heating function is on.

# Product Instructions

## Fully Splashproof and Easy to Clean

The seamless design makes this thruster splashproof and hygienic. The smooth all-over exterior makes this device incredibly easy to clean.

## Preheating Function

Heat up MOSE for a realistic feel while you play. Press the “” button on the base of the shaft for 3 seconds to reach a temperature of up to 43°C.

## Battery and Charging

Conveniently USB-rechargeable, MOSE is an eco-friendly pleasure device that offers up to 120minutes of play on a single charge.

# More details

## Selected Silica gel

Wear-resistant, Waterproof  
Anti-fouling, Antimicrobial

## LED Digital screen

Large screen, electroplating  
Swarovski crystal

# Product Information /Materials

## Specifications

Materials:	Safe Silicone, ABS
Body colors:	Black, Green, Ivory
Max noise:	< 50 dB
Rotation frequency:	120Hz
Interface:	2-Button interface, 8 modes
Weight:	355 g
Battery:	1000mAh 7.4V li-polymer battery
User time:	Up to 2h
Charger time:	2hr at 5.0V 500mA
Size:	257.6 x 79.6 x 50.0 mm
